Effective January 2014, the Montgomery County Police Department switched to a new Records Management System (RMS) for collecting statistics. All data from the municipalities of Gaithersburg City and Rockville City are included in this new system. As this system is live, data may fluctuate from day to day.

Beginning in 2015, the data captured into the new RMS system only includes statistics from actual police reports written; whereas in prior years, the data captured reflected all verifiable incidents regardless of whether a report was written or not. For the purposes of the 2016 comparison report, 2015 totals were adjusted to reflect this change.

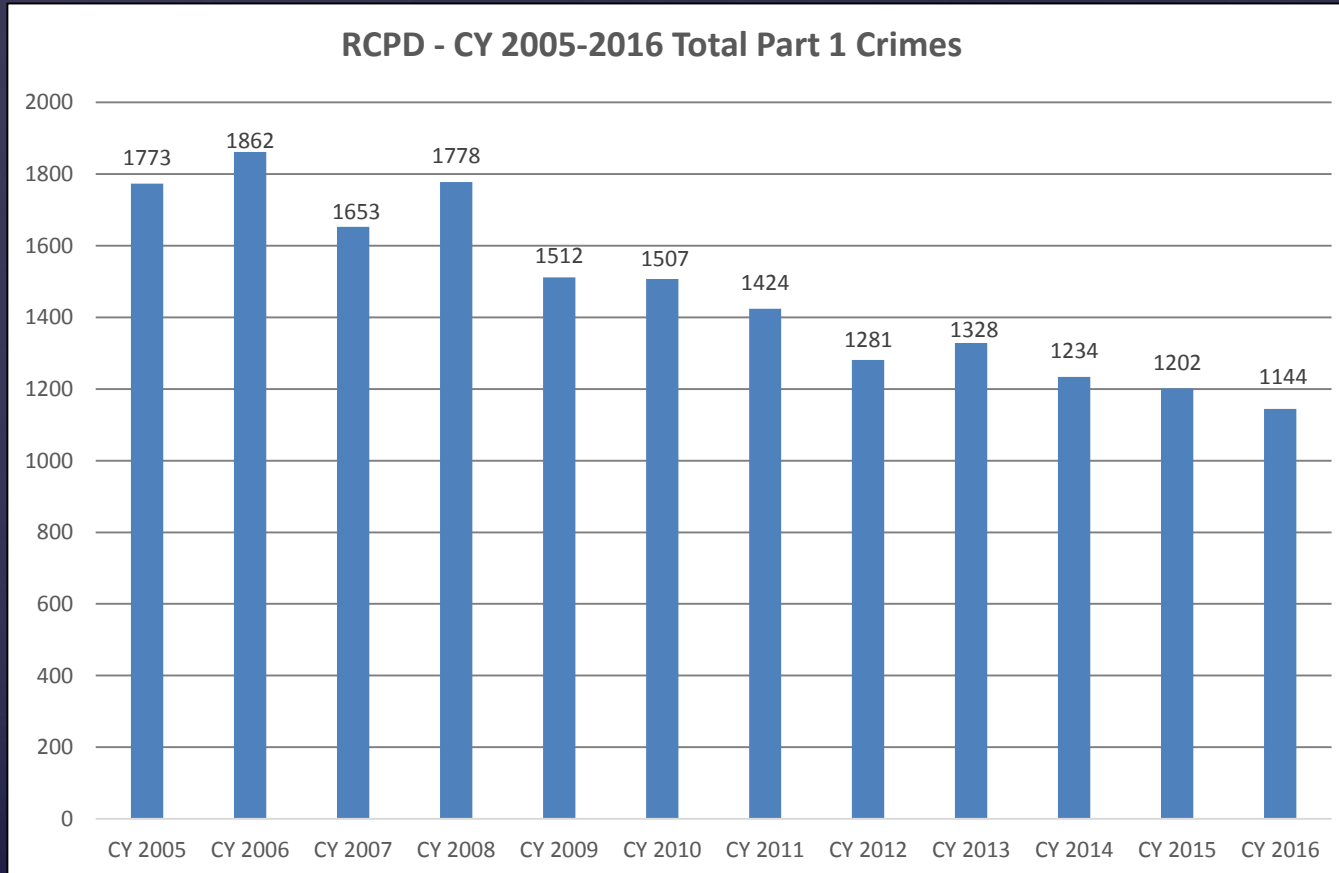

In the review of calendar year 2016, the statistics show a decrease in robberies, burglaries and larcenies. There was a slight increase in reports of rape and aggravated assaults and a significant increase in the report of auto thefts. It should be noted that in 2015 there was a dramatic decrease in the number of auto thefts, from 53 to 34 (a 35.8% decrease from the previous year).

Two homicides occurred within the City limits; in both cases the suspects have been arrested and charged.

COMMUNITY ENHANCEMENT AND CODE ENFORCEMENT UNIT

The Community Enhancement Code Enforcement Division falls under the Police Department and has the opportunity and the responsibility to enhance the quality of life for all those who live and work in the City of Rockville.

Our most significant role is to identify and meet the needs of the citizens and business owners and establish programs that will allow the division to offer the most valuable services.

A proactive approach is taken to inspect neighborhoods, and individual residential and commercial properties to bring them in compliance with the City Code requirements for property maintenance, zoning enforcement, and current licensing of rental facilities and oversized vehicles. The City of Rockville Speed Camera program continues to show success by implementing the efforts of patrol officers in the furtherance of one of our department goals: save lives, prevent collisions, and facilitate the efficient movement of vehicular and pedestrian traffic.

The significant reduction in the number of citations issued throughout the years suggests that motorists are being mindful of speed limit on our roadways.

Motorists driving on our roadways have changed their driving behaviors and have made our roads safer.

Commission on Accreditation for Law Enforcement Agencies

In July 2016, the Rockville City Police Department received full accreditation from the Commission on Accreditation for Law Enforcement Agencies (CALEA) during their attendance at CALEA's conference in Baltimore. This is the seventh time RCPD has received the accreditation since it first received the designation in March 1994. The credentialing program has become the primary method for an agency to voluntarily demonstrate their commitment to excellence in law enforcement. During the three-year review cycle, the department was in compliance with 100 percent of all applicable other-than mandatory standards — a rare achievement!
